

Filtergard I Water Faucet

Designed to enhance the benefits and performance of your RainSoft Ultrefiner® drinking water system.

A Faucet That's Built To Keep The Water Flowing For Years Of Trouble-Free Service.

With a RainSoft Filtergard I faucet, you can be sure that your family will enjoy the best possible water from your RainSoft drinking water system. Free of any lead bearing materials, the faucet will not leach lead into the filtered water as some other faucets do - and the unit is certified under NSF Standard 58.

Built of rugged materials that are 100% factory tested, the Filtergard I faucet includes new quick connection fittings and is engineered to deliver years of reliable, efficient service.

The stainless steel spout provides strength and safety for long life. The Filtergard I faucet is available in your choice of chrome or designer white.

This product is listed and conforms to the material requirements of ANSI/NSF Standard 58.

Benefits will be provided by various types of RainSoft equipment when installed and operated according to manufacturer's recommendations. Operational, maintenance and replacement requirements are essential for the product to perform as advertised. All claims based on best available information at time of printing. Manufacturer makes no representations as to the suitability of this equipment for a particular application. Buyer relies entirely on dealer's recommendations in the purchase of this equipment. Independent RainSoft dealers may include, together with your RainSoft product, a product or component that is not manufactured by RainSoft or their parent company, Aquion Partners L.P. Any non-RainSoft product may be covered by the manufacturer of that product, and is not covered by the RainSoft warranty. Aquion Partners L.P. does not warrant that your RainSoft product and the non-RainSoft product will perform properly when used together, and assume no liability therefore.
