

Filtergard III Air Gap Faucet

Designed to enhance the benefits and performance of your RainSoft Ultrefiner® drinking water system.

The Advanced Air Gap Faucet To Complement Your RainSoft Drinking Water System.

With a RainSoft Filtergard III Air Gap Faucet, you can be sure that your family will enjoy the best possible water from your RainSoft drinking water system. That's because the faucet is engineered to prevent back-siphoning which can cause possible bacterial contamination of your drinking water system. And since the faucet is free of any lead-bearing materials, it can't leach lead into the filtered water as some other faucets do.

The Filtergard III Air Gap Faucet is certified under NSF Standard 58. And it's the only faucet on the market that will operate properly in the fast-flush mode found on RainSoft reverse osmosis drinking water systems.

Built of rugged materials that are 100% factory tested, the faucet includes new quick connection fittings. The stainless steel spout provides strength and safety for long life.

The Filtergard III Air Gap Faucet is available in your choice chrome or designer white.

This product is listed and conforms with material requirements of ANSI/NSF Standard 58.

Benefits will be provided by various types of RainSoft equipment when installed and operated according to manufacturer's recommendations. Operational, maintenance and replacement requirements are essential for the product to perform as advertised. All claims based on best available information at time of printing. Manufacturer makes no representations as to the suitability of this equipment for a particular application. Buyer relies entirely on dealer's recommendations in the purchase of this equipment. Independent RainSoft dealers may include, together with your RainSoft product, a product or component that is not manufactured by RainSoft or their parent company, Aquion Partners L.P. Any non-RainSoft product may be covered by the manufacturer of that product, and is not covered by the RainSoft warranty. Aquion Partners L.P. does not warrant that your RainSoft product and the non-RainSoft product will perform properly when used together, and assume no liability therefore.
